TITLE Career Education Resource Materials.
INSTITUTION New York State Education Dept., Albany. Div. of Occupational Education Instruction.
PUB DATE Sep 73
NOTE 224p.

EDRS PRICE MF-$0.75 HC-$10.20 PLUS POSTAGE
DESCRIPTORS *Career Education; Elementary Grades; *Occupational Clusters; *Resource Materials; Secondary Grades; Units of Study (Subject Fields)

ABSTRACT

The learning materials identified in this resource guide are intended for teachers who are concerned with career education. A listing of the principal careers in each of the 15 occupational clusters is provided in the initial pages of the guide, based upon "An Analysis of Fifteen Occupational Clusters Identified by the U. S. Office of Education." The occupational cluster categories are: agri-business and natural resources; business and office; communications and media; construction; consumer and homemaking education; environment; fine arts and humanities; health; hospitality and recreation, manufacturing; marine science; marketing and distribution; personal service; public services; transportation; and an overview. The media identified include books, films, filmstrips, records, slides, and pamphlets and are descriptive of careers in general and also of particular occupations. They are grouped under three headings: elementary, secondary, and teacher references. The descriptive statements often provide additional hints as to the learning level of the particular resources. The suggested grade level and other information were prepared on the basis of catalog descriptions. The source of each item is indicated by a number which refers to an alphabetical list of the 312 sources. (BP)

CAREER EDUCATION

RESOURCE MATERIALS

September 1973

The learning materials identified in this resource guide are intended for teachers who are concerned with Career Education. In general, the resources are descriptive of careers in some 15 occupational clusters and are intended for student information. A 16th category, "Overview," suggests reading and other material which give the student a broad treatment of several occupational fields.

A listing of the principal careers in each of the 15 occupational clusters is provided in the initial pages of the guide. This listing is based upon "An Analysis of Fifteen Occupational Clusters Identified by the U. S. Office of Education" prepared at Grayson County College, Sherman/ Denison, Texas. Teachers are urged to review this listing for an overview of the occupations as categorized by this study.

The media identified in the guide are classified under three headings: Elementary, Secondary, Teacher Reference. The descriptive statements often provide additional hints as to the learning level of the particular resource. The suggested grade level and other information were prepared on the basis of catalog descriptions. Teachers who utilize the various resources, therefore, are requested to provide the Department reactions to the materials so that modifications in this guide can be made in subsequent printings based upon classroom experience.

Robert H. Bielefeld, Director
Division of Occupational
Education Instruction

CONSTRUCTION
WOOD
The grouping together of those occupations utilizing wood, wood products, and wood building systems as the primary building, assembling, and working materials. Included are occupations which by tradition and practice are normally included as a part of carpentry programs.
Framing
Flooring
Forming
Trimming
Roofing
Material Distributing
METAL
The grouping together of those occupations utilizing metal, metal products, and metal building systems as primary building, assembling, and working materials.
Welding
Sheetmetal Working
Plumbing
Pipefitting
Air Cond. and Heating
Millwright
Material Distributing
MASONRY
The grouping together of those occupations utilizing masonry, clay products, and masonry building systems as primary building, assembling, and working materials.
Brick and Block Laying
Concrete Working
Tile and Terrazzo Working
Plastering
Material Distributing
ELECTRICAL
The grouping together of those occupations utilizing electrical materials, related electrical components, and electrical building systems as primary assembling and working materials.
Residential Wiring
Commercial Wiring
Industrial Wiring
Material Distributing
FINISHING
The grouping together of those occupations utilizing finishing products and finishing building systems as the primary assembling and working materials.
Painting and Papering
Insulating
Glass and Glazing
Sheetrocking
Floor Covering
Landscaping
Material Distributing
HEAVY EQUIPMENT OPERATIONS
The grouping together of those occupations utilizing the operation and maintenance of heavy equipment.
Equipment Operating
Equipment Maintaining
Material Distributing
ENGINEERING AND SUPPORT SERVICES
The grouping together of those occupations utilizing engineering and technical-supportive training.
Construction Drafting and Arch. Drawing
Estimating
Expediting
Surveying

MARINE SCIENCE
RESEARCH
These occupations explore, survey, and analyze the physical, chemical, biological, and geophysical aspects of the marine environment. Personnel in this job family are highly trained and may work on shore, underwater, or on the surface.
Physical Oceanography
Aquatic Biology
Meterology, Marine
Hydrology
MINERAL AND CHEMICAL EXTRACTION
These occupations explore, assay, and extract minerals and chemicals from sea water and the ocean floor.
Dredgeman
Mining Engineers
Metallurgical Engineers
Electrochemical Engineers
Extracting Plant Personnel
OFF-SHORE DRILLING
These occupations explore, survey, and drill for petroleum and natural gas in open water above the continental shelf from a floating or stationary rig.
Surveyors
Seismographers
Drillers
Roughnecks
Roustabouts
Tool Pushers
Derrickman
Floorman
Rig Builder
Pumper
FISHING
These occupations locate fisheries and harvest fish and other marine produce. Occupations in this job family vary from unskilled labor to technical skills.
Fisherman
Sponge Gathers
Kelp Cutters
Finfish Processing Plant Personnel
Shellfish Processing Plant Personnel
Shellfish Dredger
AQUACULTURE
These occupations cultivate marine life in a controlled environment. Personnel in this job family may be employed in a privately owned finfish or shellfish farm or work in a government operated fish hatchery.
Finfish Farm Personnel
Shellfish Farm Personnel
Fish Culturist
Fish Hatchery Personnel
MARINE TECHNOLOGY AND ENGINEERING
These occupations design and construct surface and underwater vessels and instruments used for marine exploration and exploitation. Some personnel in this job family may operate a variety of electronic sensory and data collecting instruments.
Marine Architecture
Marine Drafting
Marine Engineering Personnel
Diver
Electronic Specialist
SURFACE AND ON-SHORE SUPPORT
These occupations include a wide range of support personnel who process, market, and distribute marine produce; operate, maintain, and repair vessels of all kinds; work in laboratories or computor centers.
Marine Life Processing and Distributing Personnel
Laboratory Personnel (Research and Quality Control)
Vessel Operators
Vessel Repair Personnel
Vessel Servicing Personnel
